

 Closures Due to Adverse Weather

Mid-Columbia Libraries (MCL) may close or delay in the event of snow, ice, or other emergencies. **Closures** at each of our 12 library branches are based on local school district closures; if a school district closes, the library branch in that district will close.

Changes to library hours due to poor weather conditions are NOT based on school district schedules; delayed openings and early closures are determined by library officials.

For library closures and delays, visit the MCL homepage or our **Facebook** page. For local school district closures, check local media KNDU TV or News Radio 610 KONA.
