### Instructions

1. Print the Unicorn
2. Cut out and assemble you can arrange it as desired.
3. Glue the pieces down on paper, if available glue on construction paper
4. Decorate the mane and tail and glue on googly eyes

#### Tips for cutting with little ones

- Sing open shut them to get the scissor action going.
- Always cut AWAY from your body.
- Draw a little smiley face on your child's thumb (or stick a little sticker on it) so they remember to keep thumbs up when cutting.
- Remind and help your child to turn the PAPER so they don't end up arching their cutting hand awkwardly into their body when cutting around shapes.
